Document contents

Evidence note: distinguish observed results, interpretation, limitations, and future validation throughout the document.

0.1 Abstract

Summarize context, objective, method, principal results, interpretation, and contribution without unsupported claims.

Evidence	Method	Interpretation	Limitation
Abstract	Structured analysis	Material pattern identified	Context-specific sample
Robustness check	Sensitivity review	Direction retained	Further validation recommended

0.2 Introduction

Establish the problem, relevant evidence, gap, conceptual framing, research objective, questions, and contribution. **Review record:** Assign the owner, evidence, dependencies, decision date, and next action.

0.3 Methods

Describe design, setting, participants or data, sampling, measures, procedure, analysis, ethics, and reproducibility.

Evidence	Method	Interpretation	Limitation
Methods	Structured analysis	Material pattern identified	Context-specific sample
Robustness check	Sensitivity review	Direction retained	Further validation recommended

0.4 Results

Report findings in logical order with estimates, uncertainty, tables, figures, robustness checks, and no interpretive overreach. **Review record:** Assign the owner, evidence, dependencies, decision date, and next action.

0.5 Discussion

Interpret results against the research questions and prior evidence, explain mechanisms, implications, and alternative explanations. **Review record:** Assign the owner, evidence, dependencies, decision date, and next action.

0.6 Limitations

Explain design, measurement, bias, power, generalizability, uncertainty, and data or analytical constraints. **Review record:** Assign the owner, evidence, dependencies, decision date, and next action.

0.7 Conclusion

State the supported conclusion, practical or theoretical relevance, unresolved questions, and proportionate future work. **Review record:** Assign the owner, evidence, dependencies, decision date, and next action.

0.8 References and disclosures

Provide complete citations, data and code availability, funding, conflicts, contributions, acknowledgments, and ethics details. **Review record:** Assign the owner, evidence, dependencies, decision date, and next action.
