DELIVERY IN VIEW

Project Status Report

A repeatable status report covering progress, schedule, budget, milestones, risks, decisions, and the next reporting period.

PREPARED FOR

Aperture Mobility

Northstar Systems · Mara Klein · 4 August 2026

Contents

Document contents

Overall status

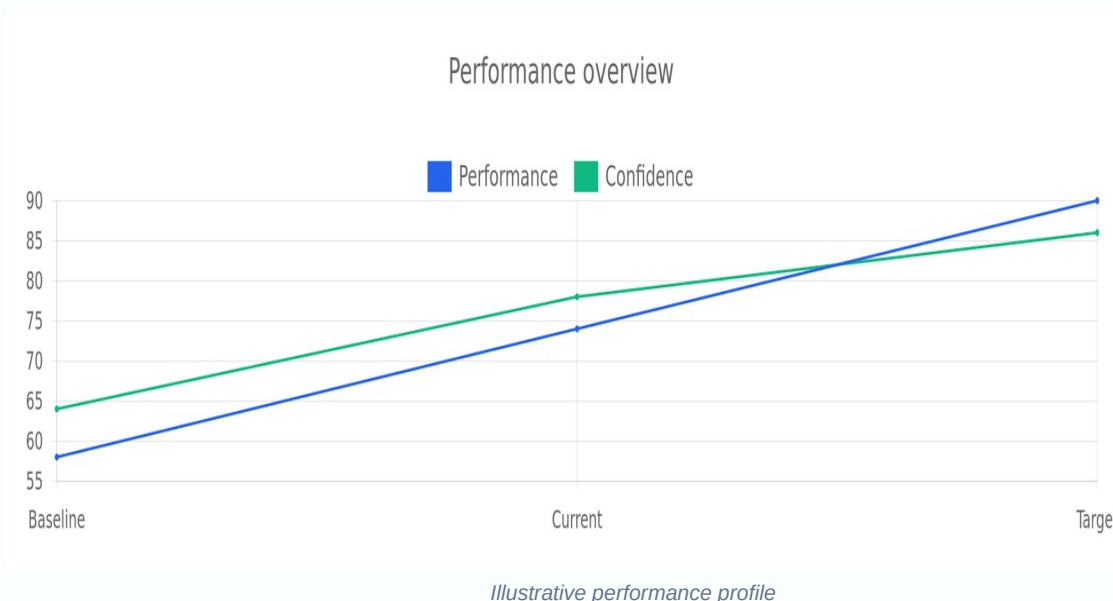

Provide reporting period, RAG status, confidence, key movement since last report, and the one message sponsors should retain.

Document control	Detail
Owner	Mara Klein
Reference	NS-013-2026
Effective date	4 August 2026
Status	Ready for review

Progress and outcomes

Summarize completed work, achieved outcomes, evidence, unfinished commitments, and impact on the plan.

- Confirm the responsible owner and decision deadline.
- Record evidence, assumptions, and dependencies explicitly.
- Convert the agreed outcome into a trackable next action.

Schedule and budget

Compare baseline and forecast milestones, spend and forecast, variance, contingency, and corrective action.

Workstream	Milestone	Owner	Status
Schedule and budget	Baseline approved	Mara Klein	On track
Dependencies	Inputs confirmed	Project team	In review

Risks, issues, and dependencies

Maintain a prioritized RAID view with exposure, owner, response, target date, and escalation status.

- Confirm the responsible owner and decision deadline.
- Record evidence, assumptions, and dependencies explicitly.
- Convert the agreed outcome into a trackable next action.

Decisions and actions

List decisions required, decision owner, due date, recommendation, and consequences of delay.

Workstream	Milestone	Owner	Status
Decisions and actions	Baseline approved	Mara Klein	On track
Dependencies	Inputs confirmed	Project team	In review

Next period

Commit the next reporting period deliverables, milestones, dependencies, meetings, and success evidence.

- Confirm the responsible owner and decision deadline.
- Record evidence, assumptions, and dependencies explicitly.
- Convert the agreed outcome into a trackable next action.
